We deal in Packaging solutions for restaurants, cafés, bakeries, Catering, food delivery brands, and Packaging distributors and retailers seeking reliable alternatives to plastic. Our focus is on water-based, recyclable barrier coatings that meet modern sustainability and food-safety expectations

PRODUCT CATALOGUE

ABOUT US

We specialize in sustainable, biodegradable and PFAS-free paper packaging for the food industry.

Our production facility in Kudal, India since 1980 brings over four decades of experience in paper converting and food-contact packaging.

We deal in Packaging solutions for restaurants, cafés, bakeries, food delivery brands, and retailers seeking reliable alternatives to plastic and PE-coated paper. Our focus is on water-based, recyclable barrier coatings that meet modern sustainability and food-safety expectations.

We offer technical support, consistent quality, and flexible production for export markets. Our approach is practical and collaborative. We work closely with our customers to select the right paper grades, coatings, and formats based on food type, usage conditions, and sustainability goals.

We supplies responsibly made packaging designed to protect food, support brand image, and reduce environmental impact. Our menu-based packaging approach ensures you get exactly what you need – nothing wasted, everything optimized.

Why Choose Us?

- ☐ Food-grade and food safe, Odour-Free Packaging (100% PFAS free)
- ☐ No More Harmful PE Coating (Water Soluble Coating)
- ☐ Loyalty & commitment
- ☐ Custom sizes and printing available
- ☐ Cost advantage

Menu-based Packaging

Our Menu-Based Packaging is a first-of-its-kind approach in India—designed to make packaging work smarter for your brand:

We Study Your Menu

Understanding your exact dishes—curries, snacks, beverages, and desserts—to identify specific packaging needs.

We Optimize Your Inventory

Strategic system covers all your menu items, reducing waste and storage hassles.

We Design for Performance

Packaging that is leak-proof, heat-tested, and brand-aligned, unlike generic, European-oriented products.

We Protect Your Brand & Planet

Intelligent designs that enhance delivery experience while eliminating harmful materials

The Result?

Less wastage, fewer complaints, and happier customers. Economical in the long run with sustainable, durable solutions.

A direct line to a manufacturer who understands your food, your challenges, and your growth.

trediz listens to you, studies your menu, and delivers packaging that finally works the way you need it to.
